

ABHINAY MARRIPELLI

Hyderabad — abhinayabhi2025@gmail.com — +91 7989406762 — linkedin.com/in/abhinay-ma

Professional Summary

Information Technology graduate with hands-on experience in Java, Spring Boot, Microservices, React, and mobile app development (React Native), skilled in building scalable, cloud-ready applications. Proficient in REST APIs, PostgreSQL, MongoDB, and Docker (CI/CD), with strong problem-solving and collaboration skills. Delivered AI-powered automation projects and award-winning innovations, eager to contribute to cloud and AI-driven solutions.

Core Skills

Languages: Java, JavaScript

Technologies: React, React Native, Tailwind CSS, Bootstrap, Microservices

Databases: MongoDB, Firebase, PostgreSQL

Frameworks: Spring, Spring Boot

Tools: Kafka, Docker, Git, Postman

Experience

Software Engineer

July 2025 – Present

Fisec (Hyderabad, India)

- Contributing to the development of Java Spring Boot microservices for financial applications.
- Implementing and testing REST APIs to ensure secure and reliable data exchange.
- Leveraged Git for version control and Docker-based deployment pipelines (CI/CD) to ensure reliable and continuous delivery.
- Collaborating with cross-functional teams to design scalable and maintainable backend services.
- Debugging and optimizing application performance to improve response time and system efficiency.

Full-Stack Developer Remote

Nov 2024 – Jan 2025

AgasthyaEnterprises

- Developed a feature-rich Invoice Maker application from scratch as a solo project, designed to streamline the creation and management of invoices for small businesses and freelancers.
- Ensured a responsive and user-friendly UI using Tailwind CSS and optimized the application for fast loading and seamless operation

Projects

Vignan Live (Campus Event Booking App)

- Developed an Android application using React Native for campus event booking and management.
- Implemented role-based access and real-time booking with QR-based ticket validation.
- Integrated Firebase for authentication and database management.
- **Tech Stack:** React Native, Firebase, QR Code.

AgasthyaEnterprises (Invoice Maker Application)

- Designed and developed a full-stack Invoice Maker application to generate, customize, and manage invoices for small businesses and freelancers.
- Deployed application in a CI/CD workflow using Git and containerized environments to maintain scalability. Worked independently on design and implementation, while incorporating feedback through code reviews.
- **Tech Stack:** React, Firebase, Tailwind CSS.

FIR Intelligence System

- Engineered an AI-powered FIR automation system integrating OCR, language translation, sentiment analysis, summarization, and speech synthesis to accelerate police reporting workflows.
- Enabled bilingual support (English–Hindi), audio accessibility, and rapid comprehension through intelligent content summarization.
- **Tech Stack:** Python, Flask, React, Hugging Face Transformers

Achievements

- DRDO's Vigyan Vaibhav 2025 Project Expo — FIR Intelligence System selected for presentation.
- Collaborated with a team of four, ensuring integration of multiple modules and presenting the project.
- Best Project Award — Recognized for the FIR Intelligence System at college.

Education

Vignana Bharathi Institute Of Technology

July 2022 – 2025

B.Tech In Information Technology

GPA: 7.65/10

Kshatriya College of Engineering

July 2019 – May 2022

Diploma In Civil Engineering

GPA: 7.48/10

Certifications

- J.P. Morgan Software Engineering Virtual Experience (Forage) — July 2024
- Introduction to MongoDB — August 2024
- Wipro TalentNext Java Full Stack — September 2024
